- **Web:** HTML, CSS, JavaScript
- **Tools:** Git, GitHub, VS Code
- **Core Concepts:** DSA, OOP, DBMS

PROJECTS

Ethereal Weather — Flutter Weather App

[GitHub Repository](#)

- Built a cross-platform weather application for Android and iOS using Flutter and Dart
- Integrated weather APIs, radar visualization, live forecasts, and location-based weather tracking
- Added saved-search functionality and designed a clean editorial-style responsive UI

Virtual Fitness Trainer — Flutter Mobile App

[GitHub Repository](#)

- Developed a fitness application with BMI tracking, workout guidance, and personalized plans
- Implemented authentication, progress tracking, and responsive Flutter UI screens
- Structured app logic for scalable feature handling and smooth user experience

CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Certified in C Programming and Java Programming

CODING PRACTICE

- Regular problem solving on LeetCode and LitCoder
- Strong logical thinking and problem-solving skills

STRENGTHS

- Quick learner with strong ownership and adaptability
- Team-oriented mindset with practical problem-solving approach
